Anne,  
A real sweet

'1965'

Anne,  
To one of the nicest girls I know a  
could ever meet. I'm glad you're a  
New Yorker too. I'll always remember  
the good times in school. Especially  
in V.O.E. Remember too the times at  
the beach and all the boys we met.  
(Ha, Ha).

Please don't feel rejected about Wayne.  
You can get a good fish if your catch  
is right.

The Prom will always be remembered.  
If we ever part I'll never forget you  
because of your sweet disposition and  
"little smile".

When the roads are crossed we will  
meet again. Maybe in New York.

Remember the good times on the yellow  
school bus. (Ha, Ha).

Just remember me by name only.

I hope."

An abstract line drawing featuring a dense cluster of stylized faces and musical notes. A diagonal band of color, transitioning from yellow at the top left to red, then pink, and finally blue at the bottom right, cuts across the composition. The drawing is executed in black ink on a white background.

# *The Inspiration*

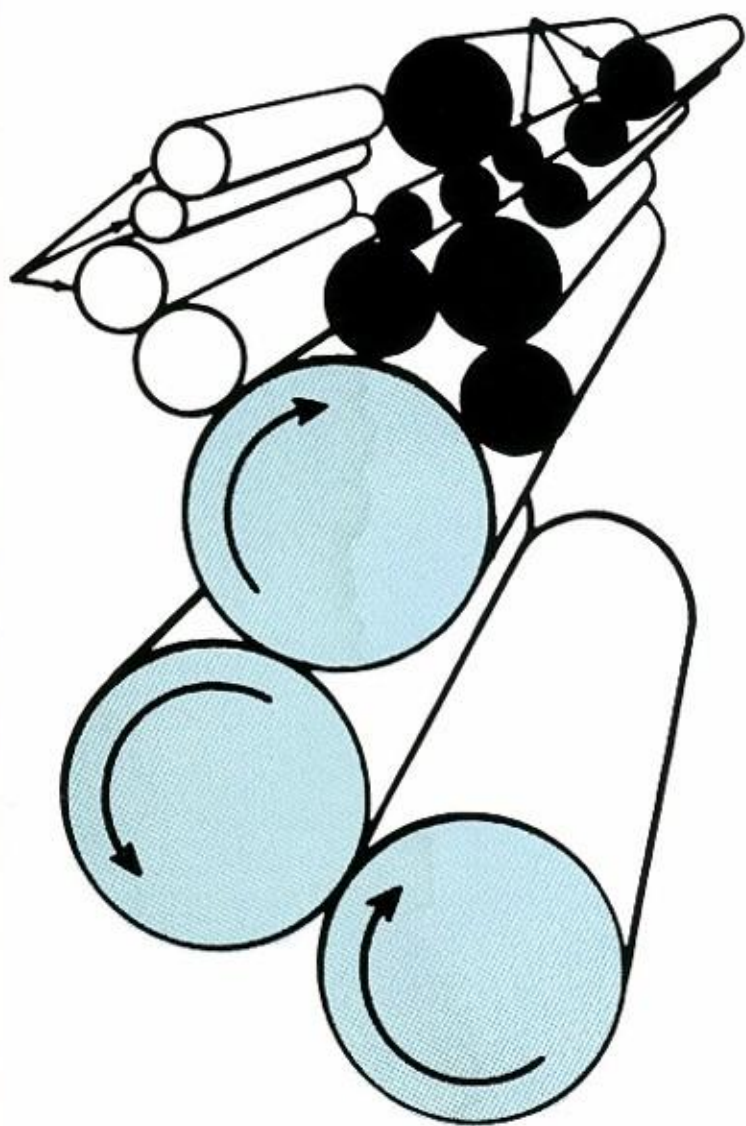

*My city is the city of people.  
What do I see when I look at my city?  
The sweeping golden sands which delicately sting the roadway in a high wind,  
The peaceful majesty of the Atlantic in the morning,  
The maze of canals which begin everywhere and pass to where others begin,  
or end,  
The specifically chosen houses of worship,  
And the schools where the students rejoice in life.*

# The Voice

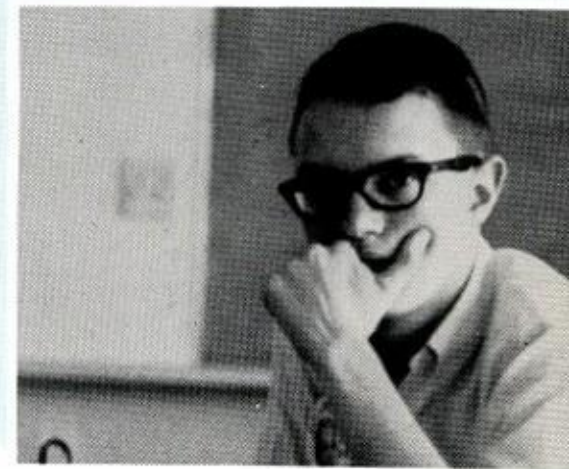

A B

Leroy Rolfe, Bill Behrens

*My school is a city, within a city,  
Where the press beats out  
The basic Democratic belief, Freedom of the press,  
Where the cacophony of the snapping typewriters  
And the jumble of thousands of messages  
Set the atmosphere  
Of the deadline to meet  
As preparation lies heavy on everyone's hands.*

*My school, my city, is people  
Who convey thousands of magic expressions  
Each signifying the ideal of the individual as he transfers  
A complex look of bewilderment,  
An expression of interest, a riotous laugh  
Or a self-satisfying stare into a mirror.*

## *The Achievement*

*My school is a symbol of achievement  
Which foments a groping desire to please  
Into an intense desire  
To progress towards the inevitable satisfaction of reward.*

*- Vicki*

## *The Spirit*

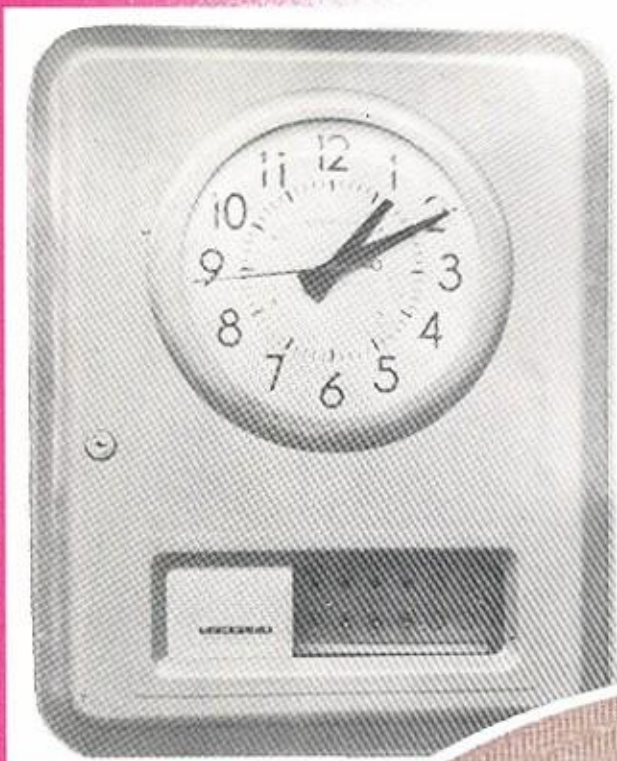

*My school has a spirit  
Freed by a rousing cheer,  
A clapping of hands,  
Or a broad smile of victory.  
My school is spirited,  
In time of demise,  
On the athletic field or in the classroom.  
And there is always a swelling  
Pride of awe when the  
Alma Mater is sung.*

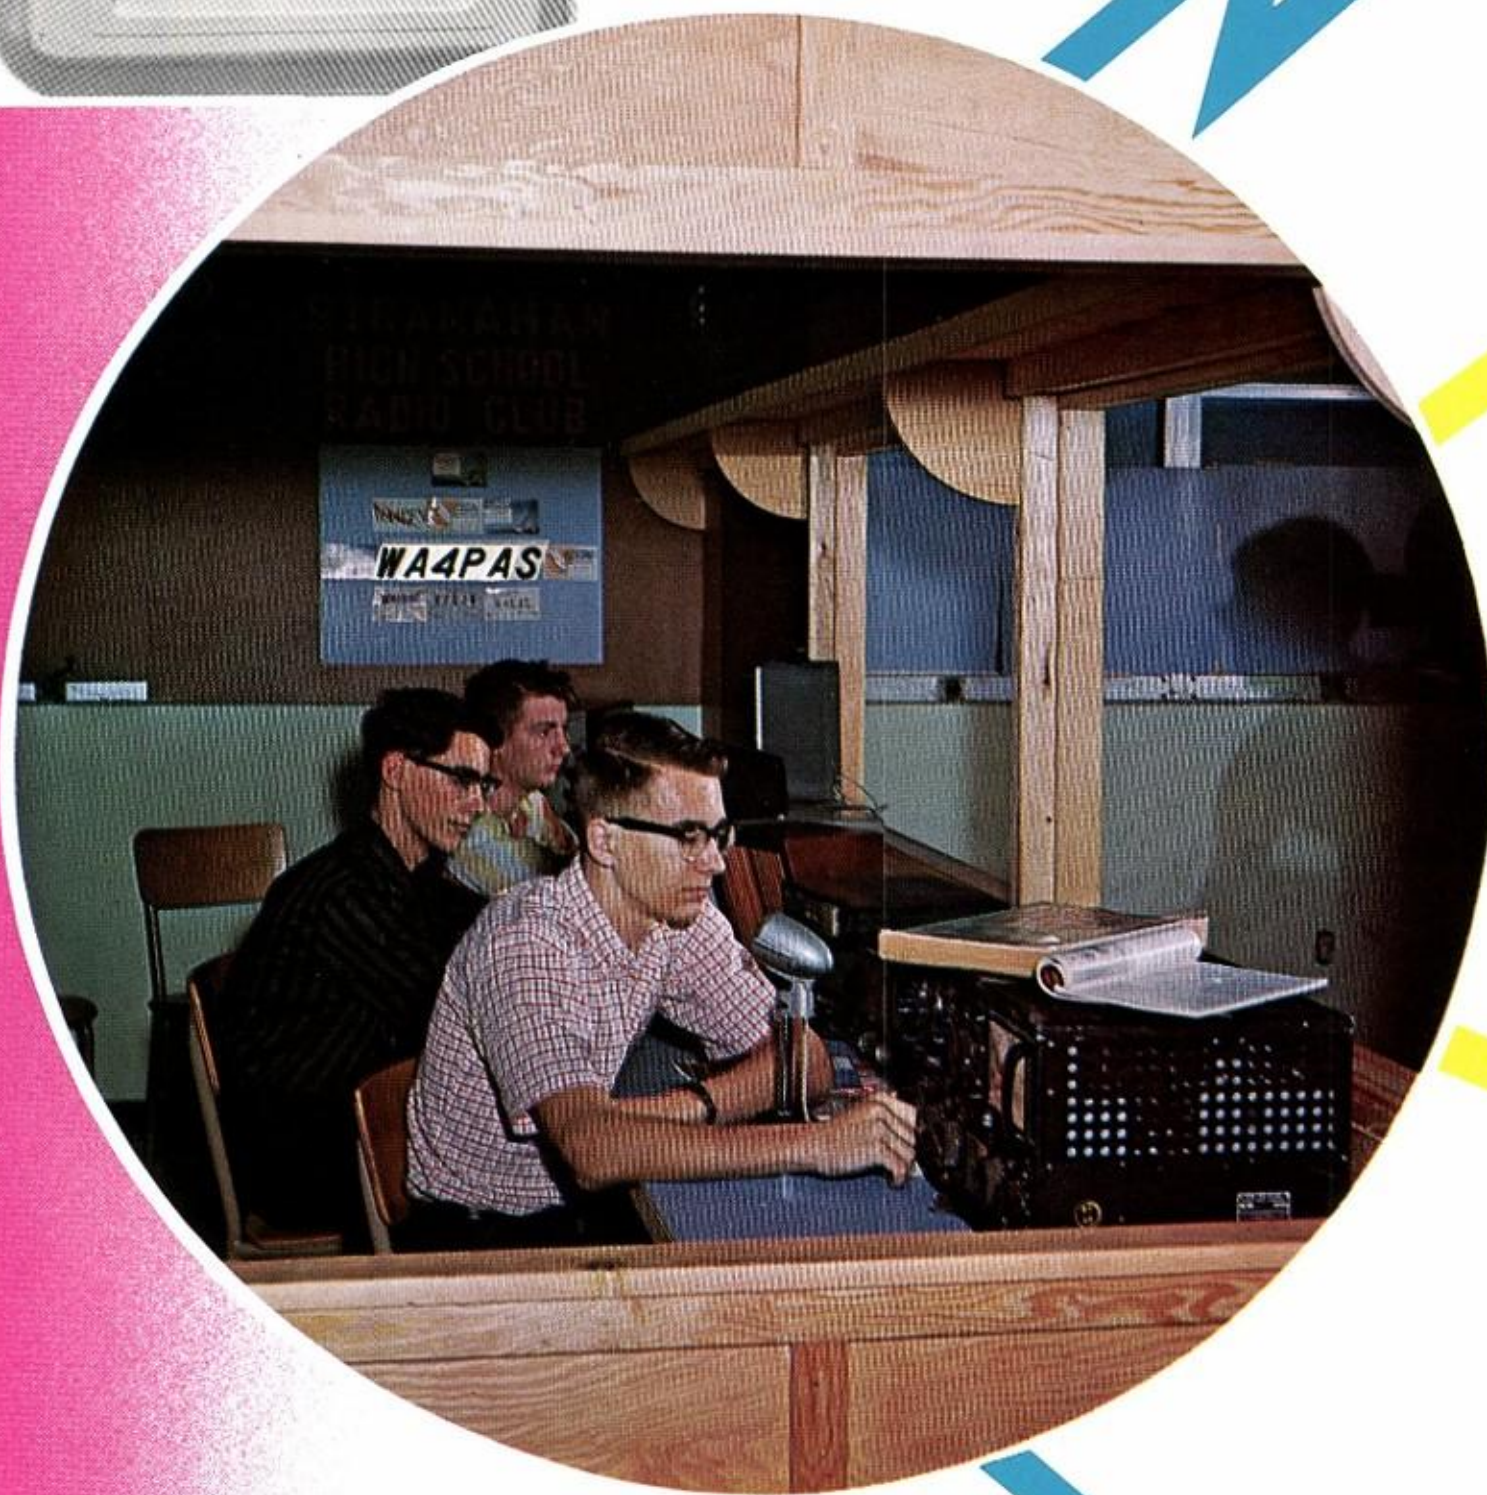

Barb Boyer

## *The Communication*

Doug Smith   Steve Michalec

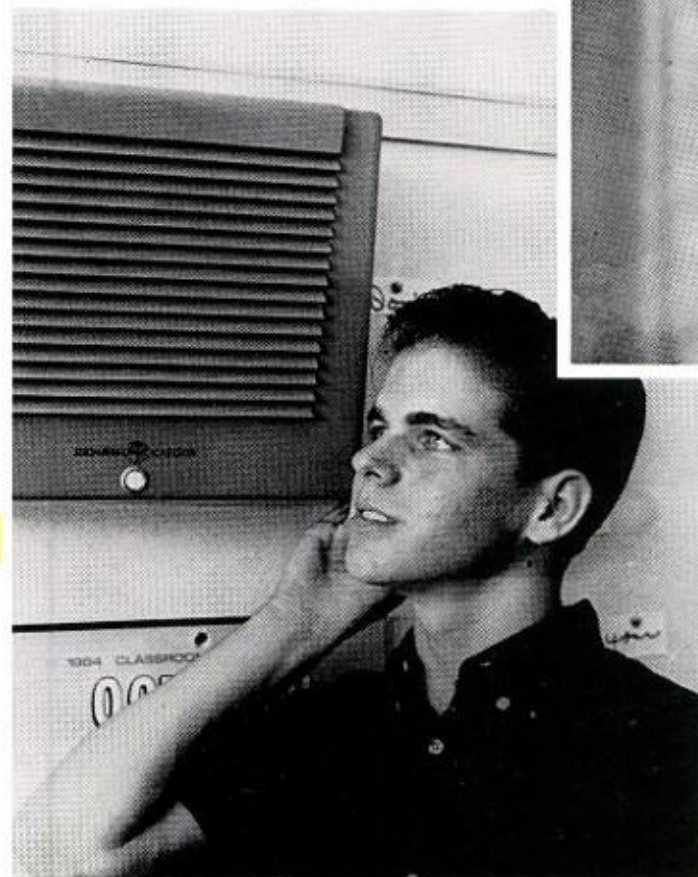

Terry Robertson

*We communicate in my school,  
Not only to ourselves,  
Via the word of mouth  
And the intercom,  
But to the outside city  
Via our switchboard  
And radio station.  
By informing and being informed,  
We close the gaps that divide us.*

# The Expression

Home Page

*We possess freedom  
To express ourselves.  
We may write a poem,  
Paint a picture,  
Evolve a new math theory,  
Or reduce a test tube to ashes,  
And these are the basis of our significance.*

Linda Barnes

# The Confusion

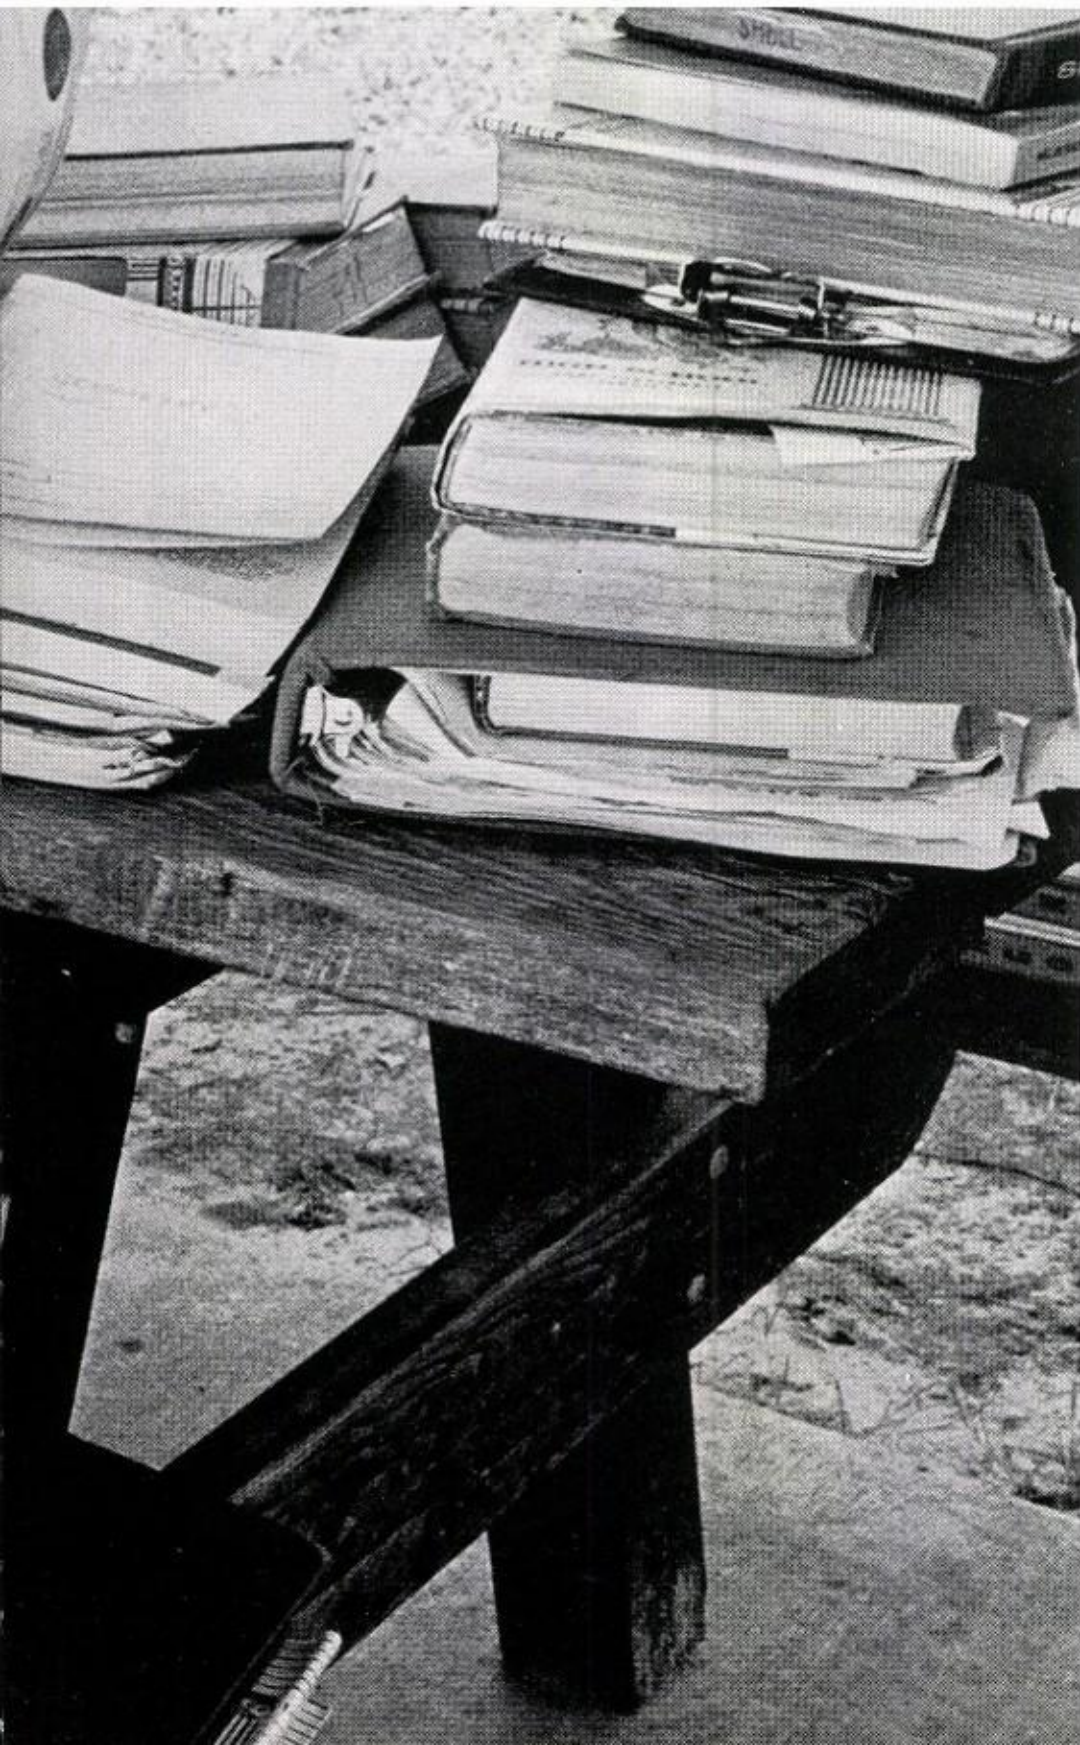

*We are not always orderly  
But from disorder  
And a ration of confusion  
Comes the creativity  
That overcomes the bewilderment  
Of entering the wrong classroom,  
Failing an important test,  
But it all leads to knowledge.*

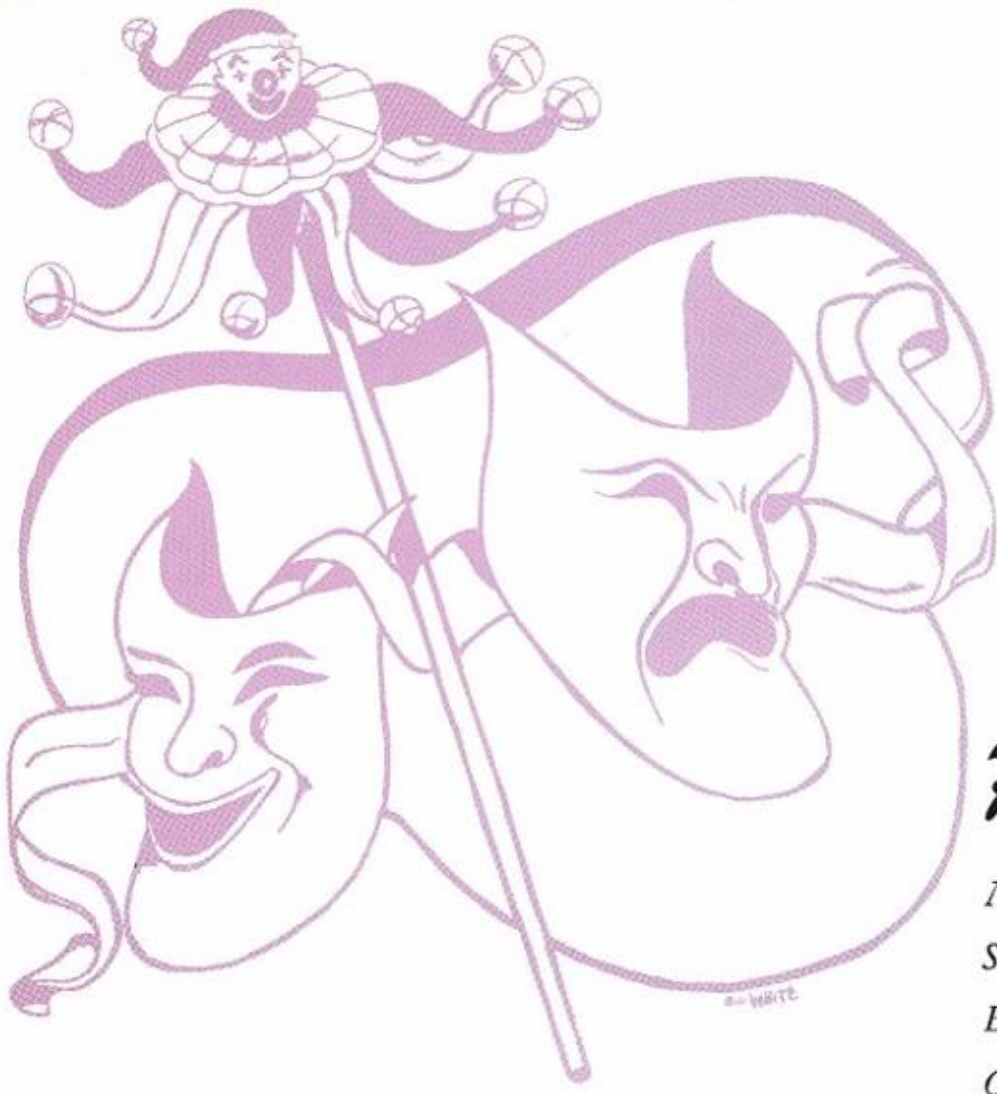

Linda Gerstenslager

## *The Performance*

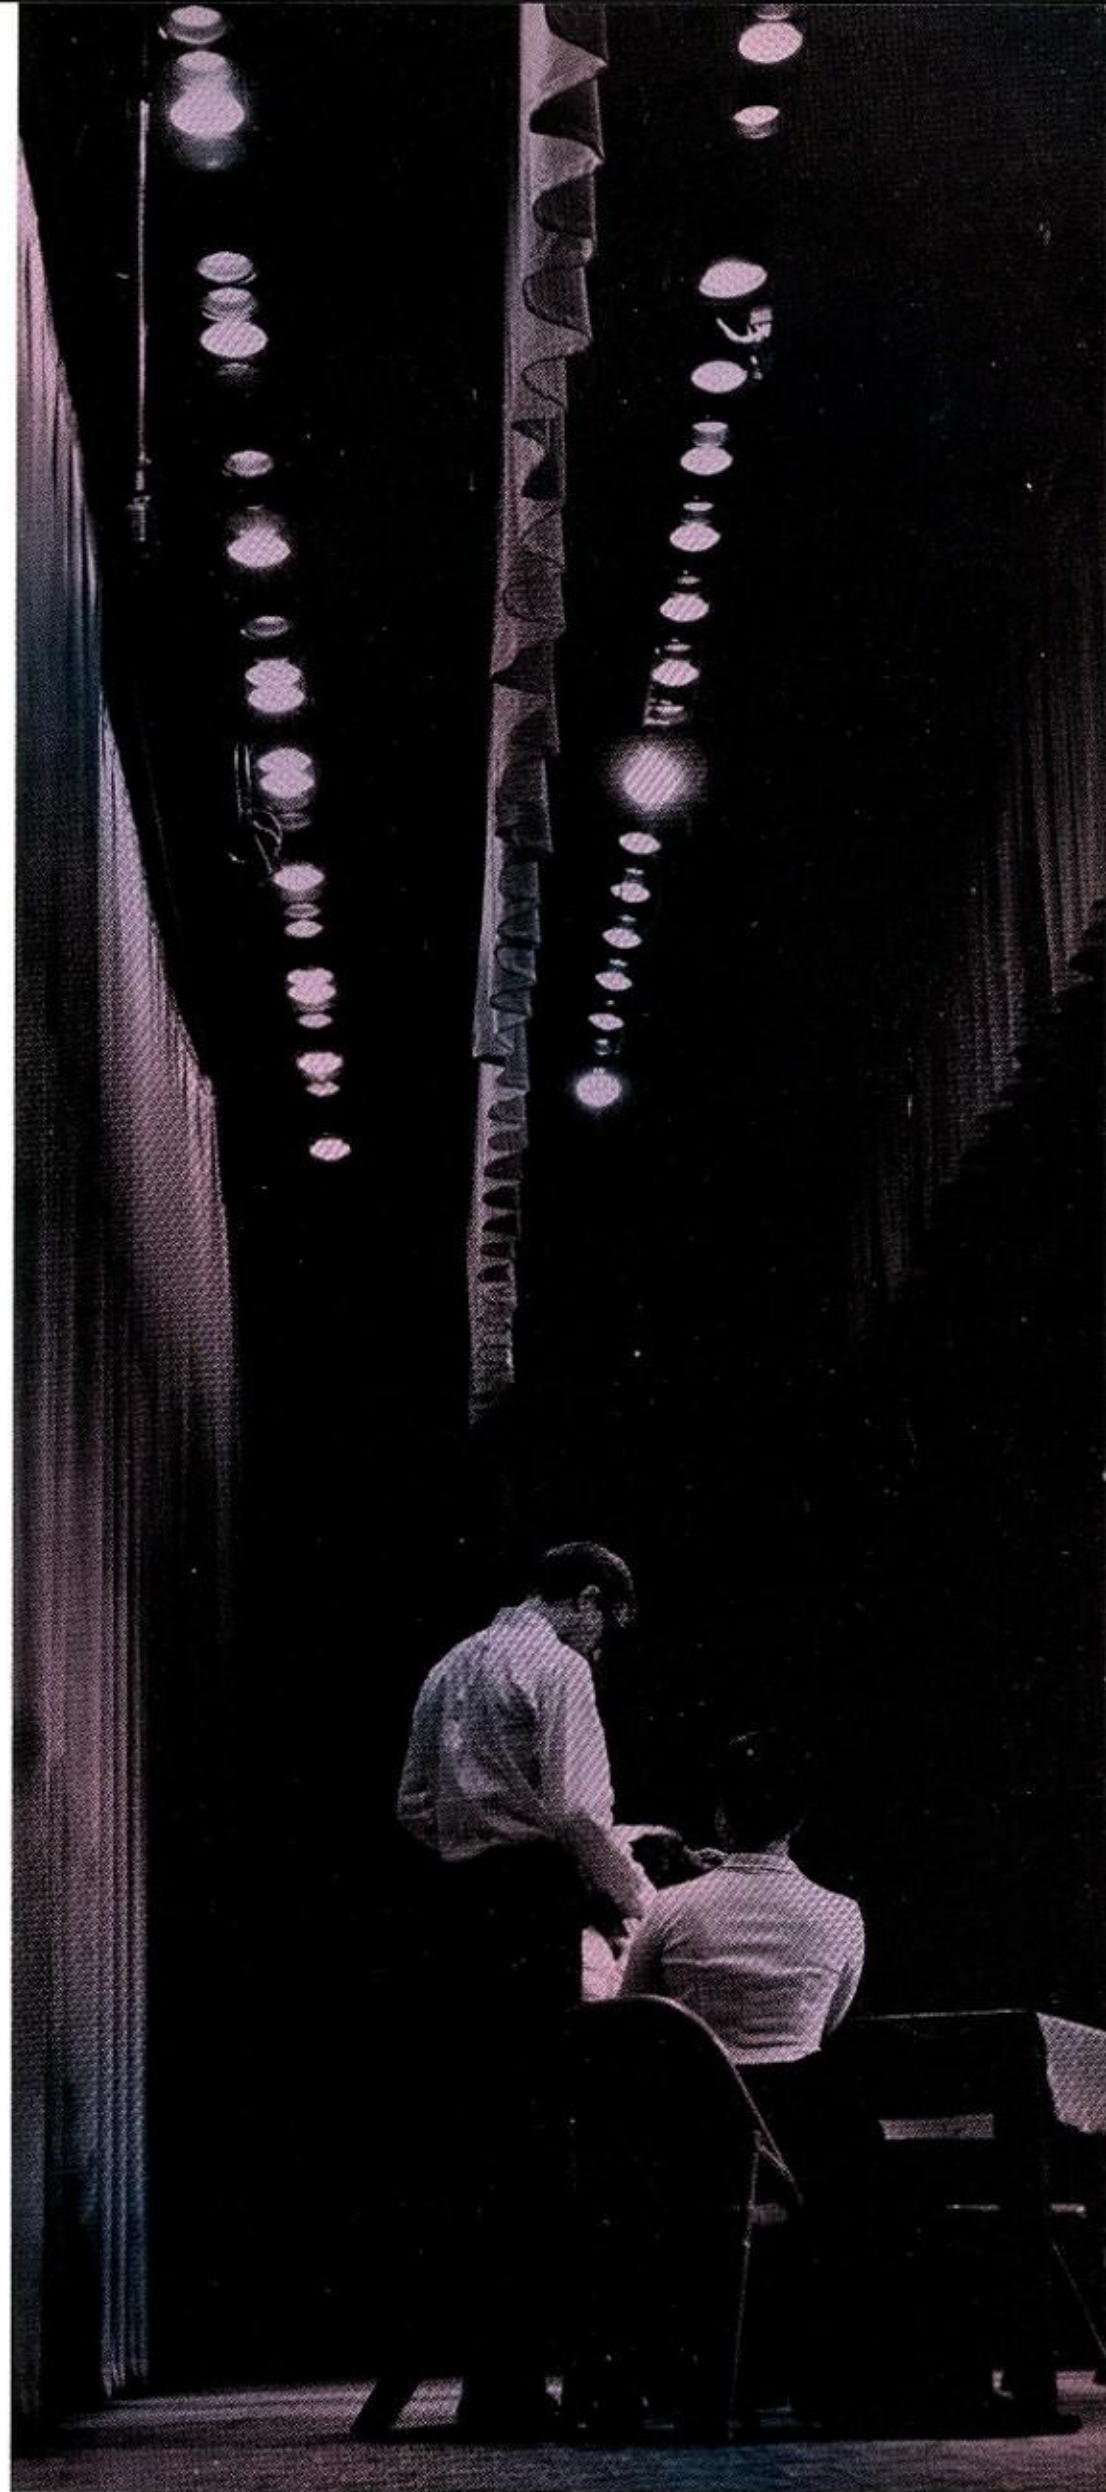

*My school has many faces  
Some true, some false  
But none are ever void  
Of expression  
Or realism  
As they perform superbly on the stage  
In the classroom and in the halls.*

Kay Schoonover

## *The Politicians*

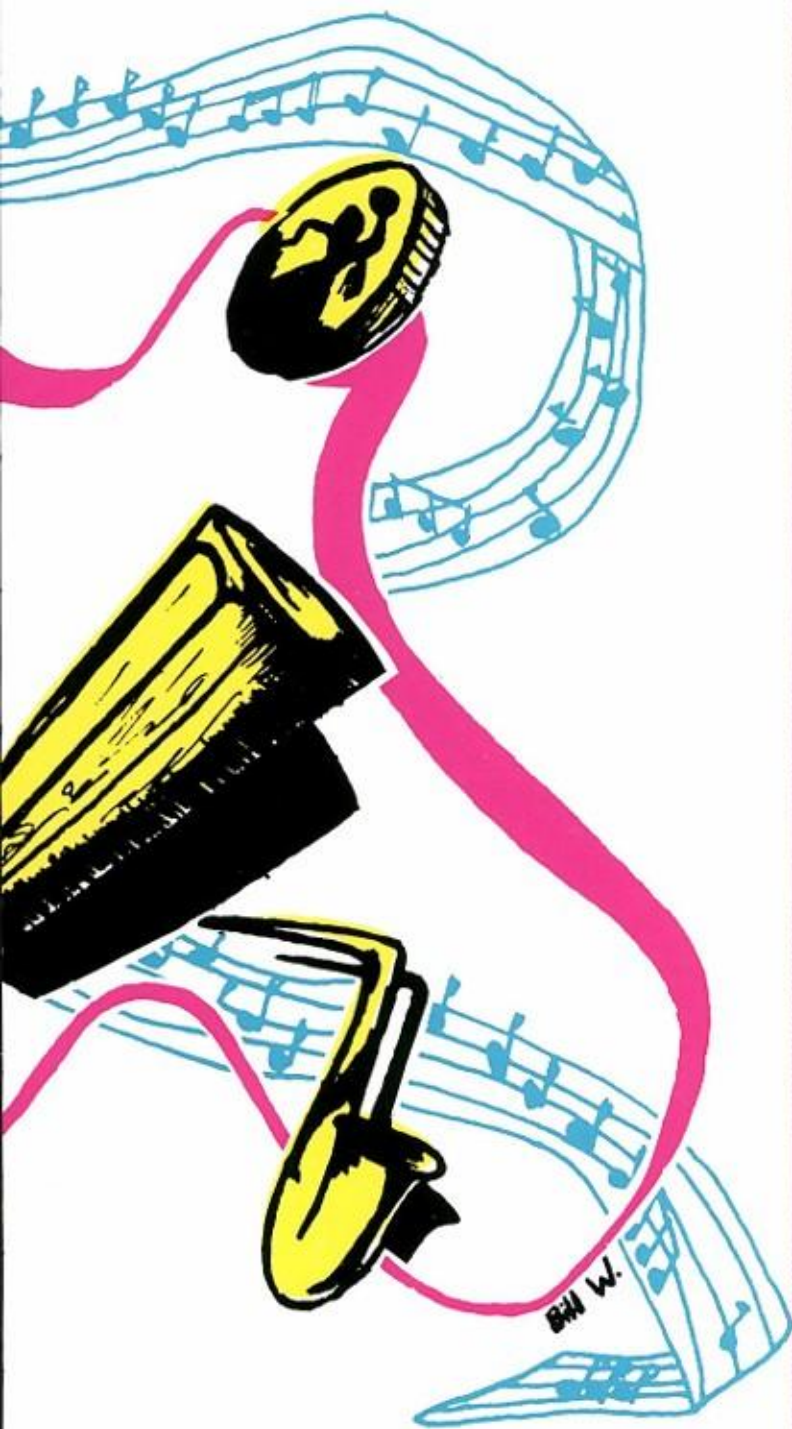

*We are a school of tradition  
Steeped in the heritage of a society  
That demands the president,  
Whether the President of the United States  
Or the president of a club,  
Go forth to meet the people  
And impress them enough  
To gain a resounding  
Victory.*

# The Sounds

*The sounds of my school  
Are natural and sweet  
Replete with a loving devotion  
That ricochets  
From choral walls  
And dances  
Along noise filled halls  
To create  
My true "Alma Mater."*

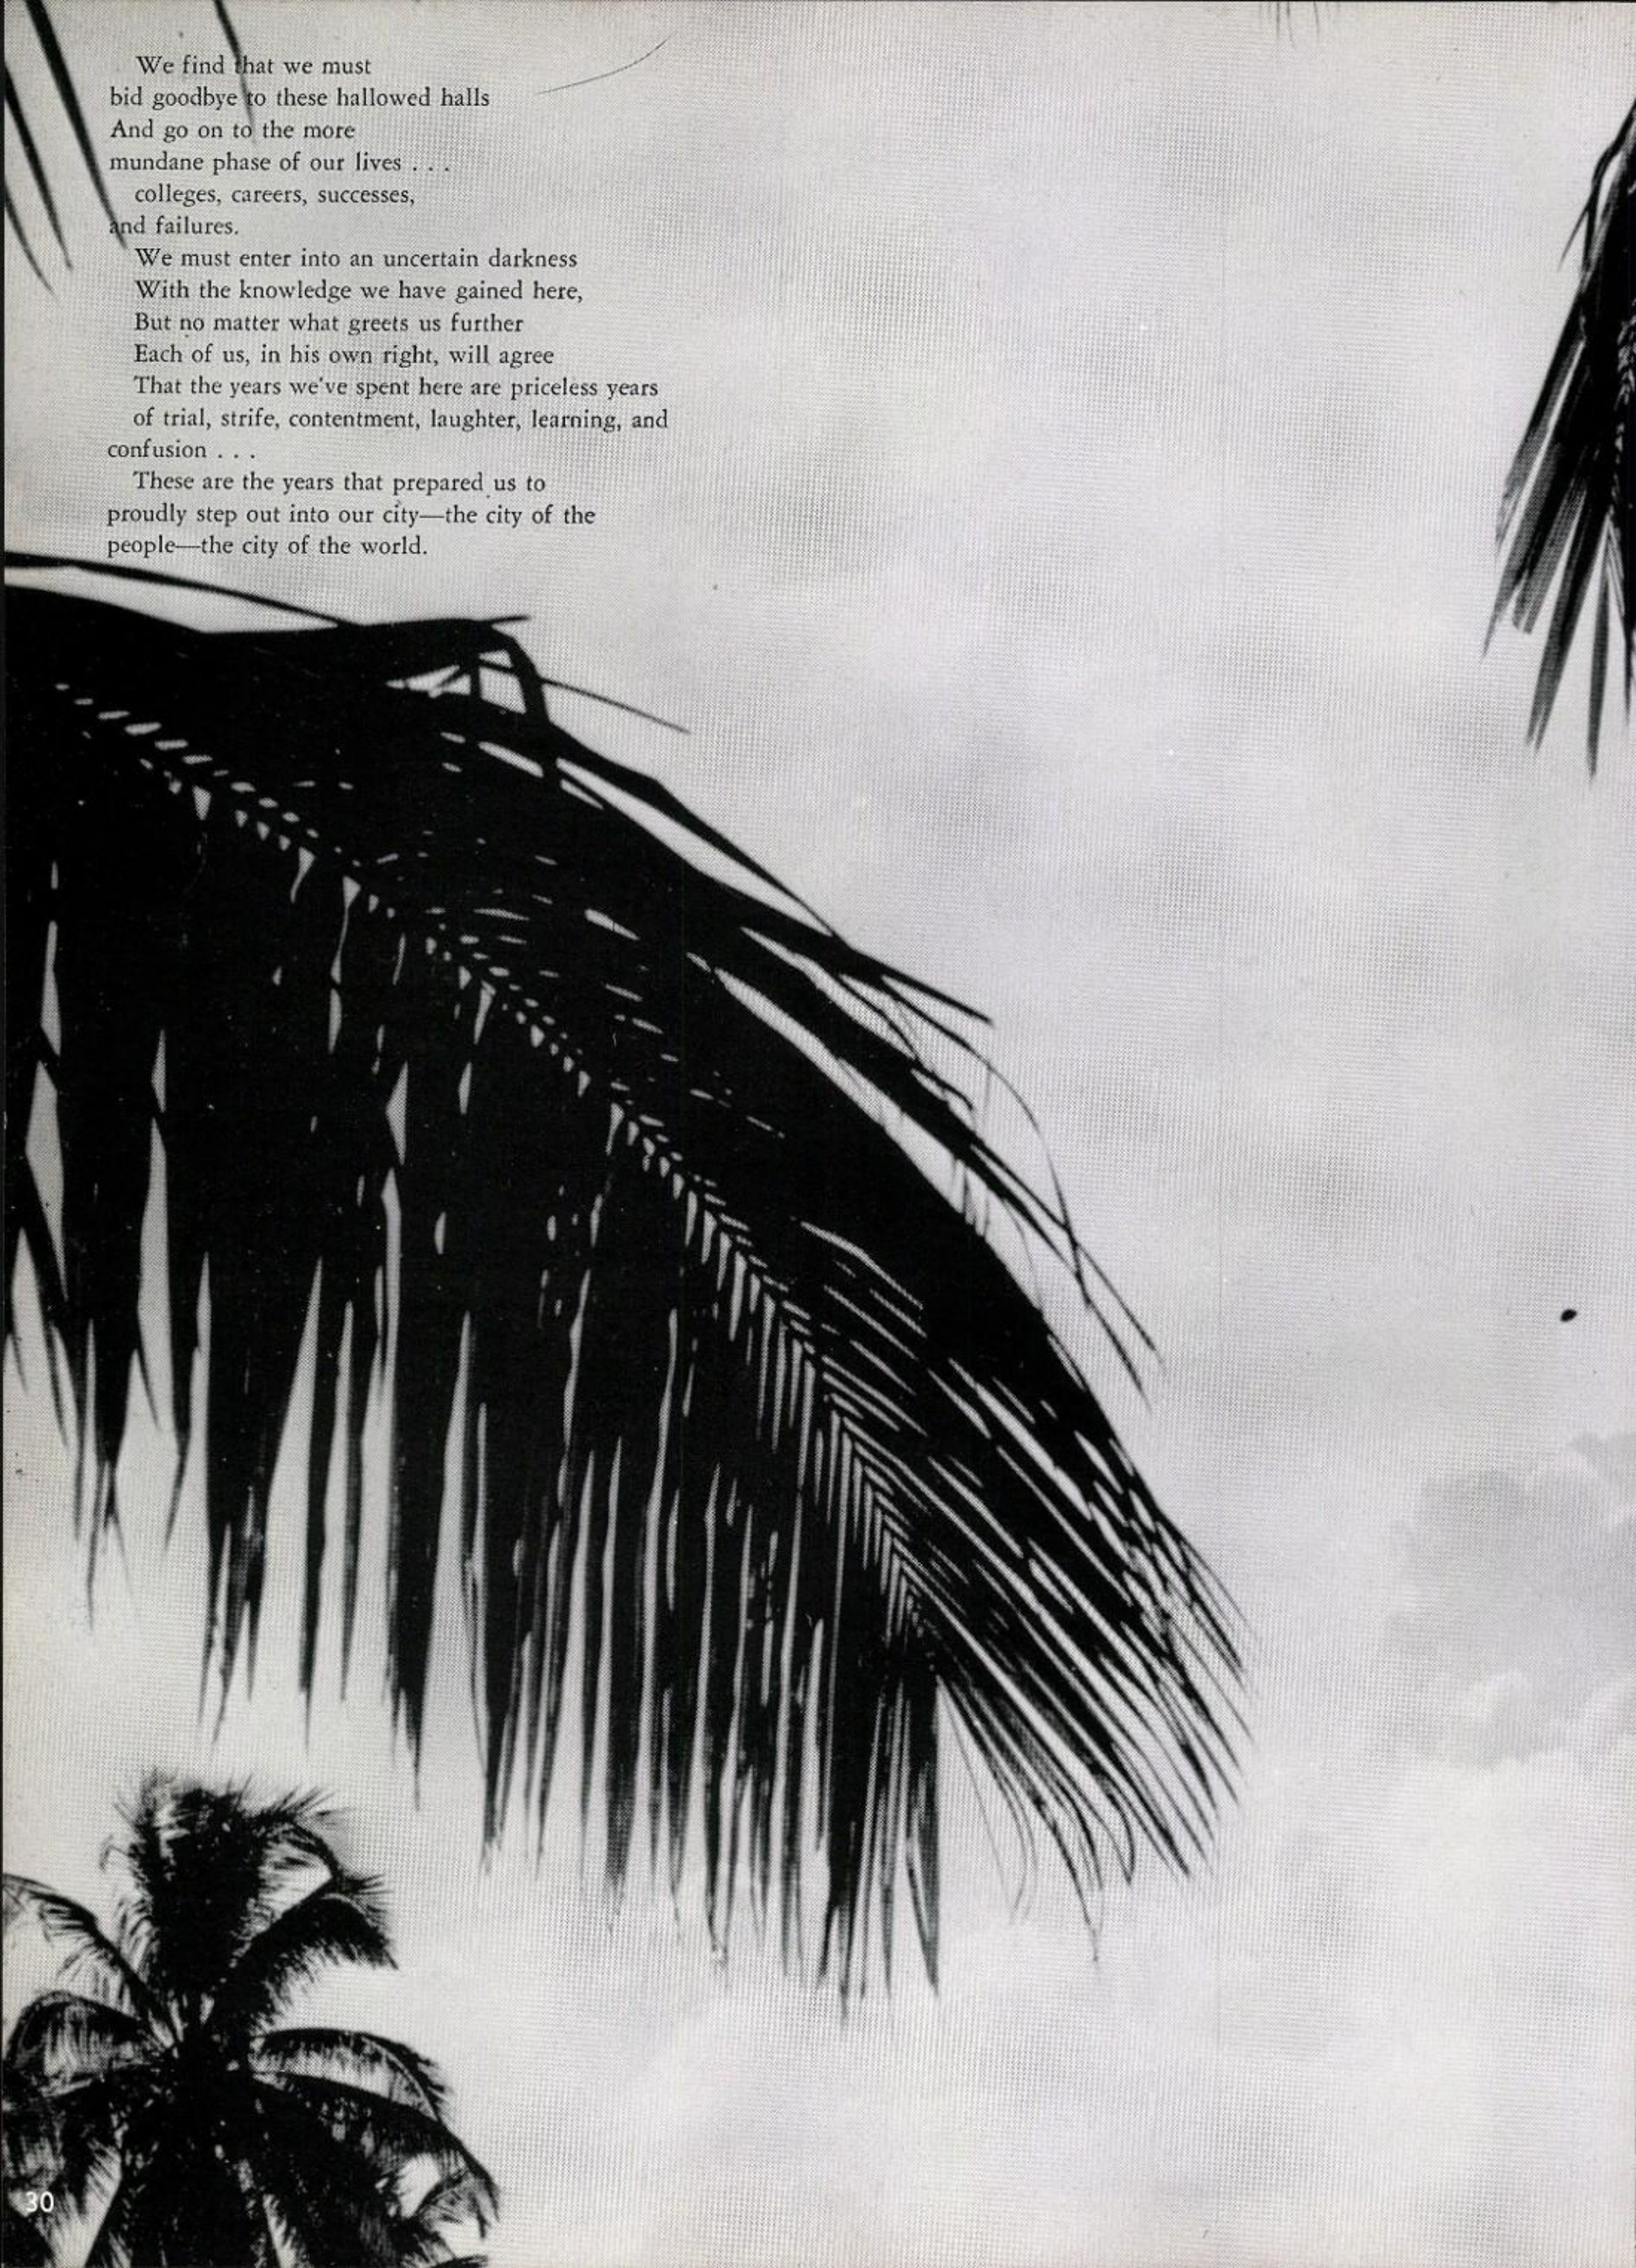

Dan Kitchell

We find that we must  
bid goodbye to these hallowed halls  
And go on to the more  
mundane phase of our lives . . .  
colleges, careers, successes,  
and failures.

We must enter into an uncertain darkness  
With the knowledge we have gained here,  
But no matter what greets us further  
Each of us, in his own right, will agree  
That the years we've spent here are priceless years  
of trial, strife, contentment, laughter, learning, and  
confusion . . .

These are the years that prepared us to  
proudly step out into our city—the city of the  
people—the city of the world.

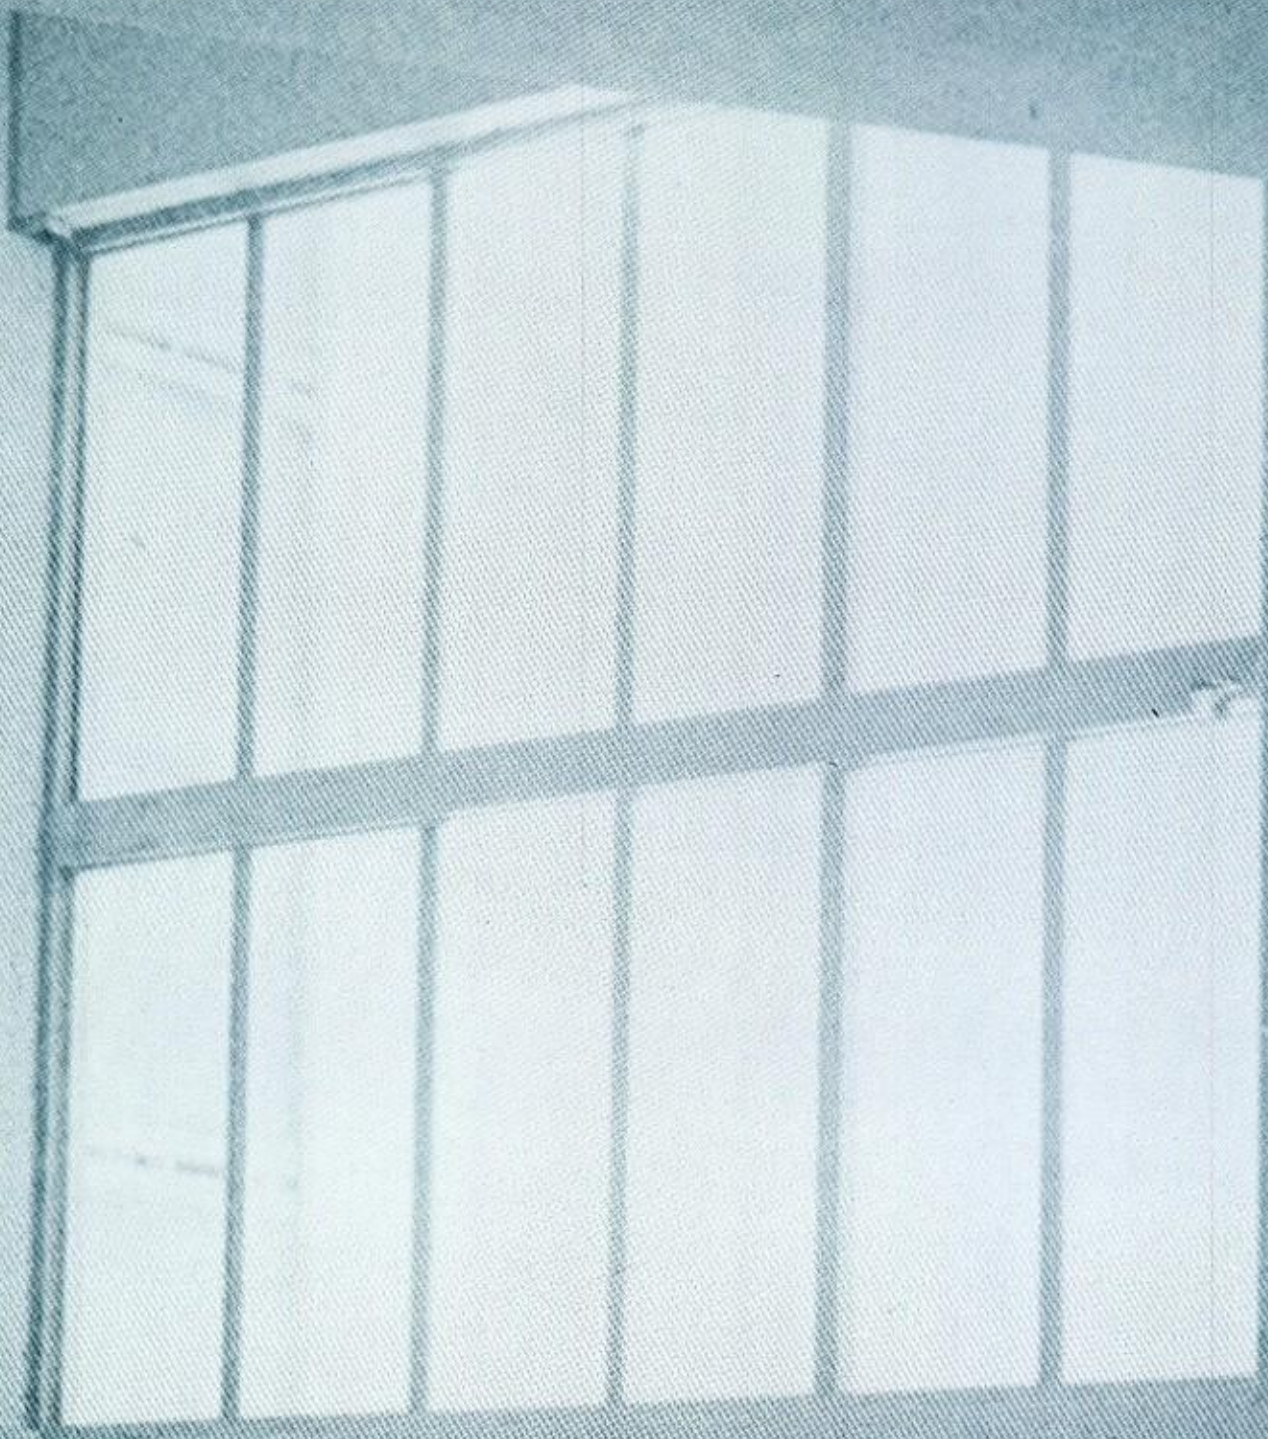

A black and white photograph of a tropical sky. The top of the image is filled with the dark, silhouetted fronds of palm trees, which are spread out across the frame. The sky below is a light, textured gray, suggesting a cloudy or overcast day. The overall composition is simple and evocative of a tropical setting.

### *A Message*

In the beginning there must be an idea. The idea may emerge after slow and sometimes painful creative effort. The wheel of the Stone Age was a crude but triumphant effort that marked a step into the future and lifted man to his present realization that Aladdin's lamp is a creative power within the reach of every individual.

The creative power of Stranahan begins with a word by the teacher who sends a fleeting thought through the mind of the student, like the spreading ripple of a stone cast upon the water, it marks the distant shore, and becomes the inspiration for an idea as real as Henry Ford's or as simple as a picture painted during an evening of creative effort.

Mr. Mosser, Assistant Principal

In the present there are innumerable ways for the creative student to grow in the world of ideas. Be a leader. Make decisions based upon facts and after guiding the creative mind through "what-would-happen-if" then decide if there is a theme to write, a role to play or a skill to improve. Do it when it ought to be done and do it better than before. Acquire the habit of effort. Creative power will grow year after year in keeping with the effort made.

Mrs. Cole, Dean of Girls

Mr. Childers, Dean of Boys

The opportunity to create should be in every class, not just in art, or shop; not just in dramatics or music. Create in the laboratory, in writing and in mathematics. Create through ideas based on facts. Do not practice attacking the routine first because it is easier. Take time for thinking out ideas. The mind works and imagination fortified with knowledge will lead to ideas that may be a step toward a new computer, a beautiful car or the novel that will live for generations.

Mr. Haun, principal, gazes longingly at the fishing rod that has given him so many hours of pleasure.

Mr. Mosser, assistant principal and an avid photographer, is shown examining his favorite camera.

# Senior

Vice President, Rick Impson; President, Jim Napolitan;

The Senior class flower is the rose.

*Blue and Silver Are the  
Class Colors.*

Treasurer, Dan Vaniman; Secretary, Christie Meyer.

When we entered the halls of Stranahan, it was known that this would be a great class. All that remained was to "act out the play". Now the play is in its last act and we have fulfilled that great potential. The proms, Macbeth, Pygmalion, and the sports activities reflected an insatiable drive on the part of the students. The goal was always to do, and to do bigger and better than had been done before. To conceive, create, and develop remained the objective of extensive efforts. This Class would never recognize failure and consequently never partook of it.

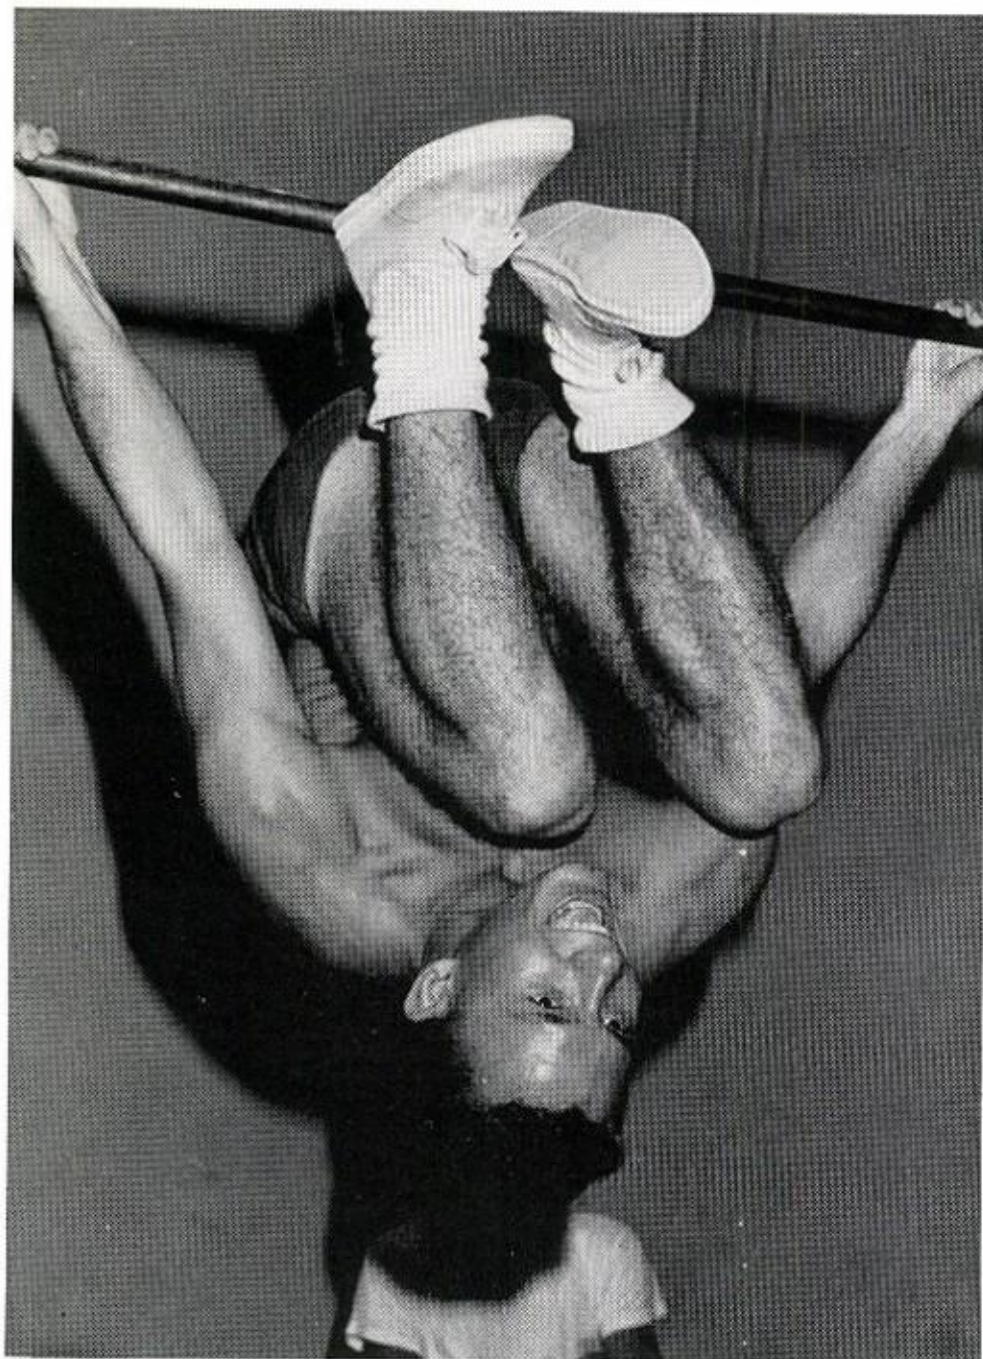

We have learned much in our days at Stranahan. We had 90 N.E.O.T. winners, 7 National Merit Finalists, a national winner in the N.C.T.E. contest, scholarship letter winners—the list is lengthy.

But now we come to the most important attribute we have gained. At Stranahan, we have matured. The progress has not always been smooth or rapid, but there has always been progress. I have no doubt this progress will continue in our individual lives.

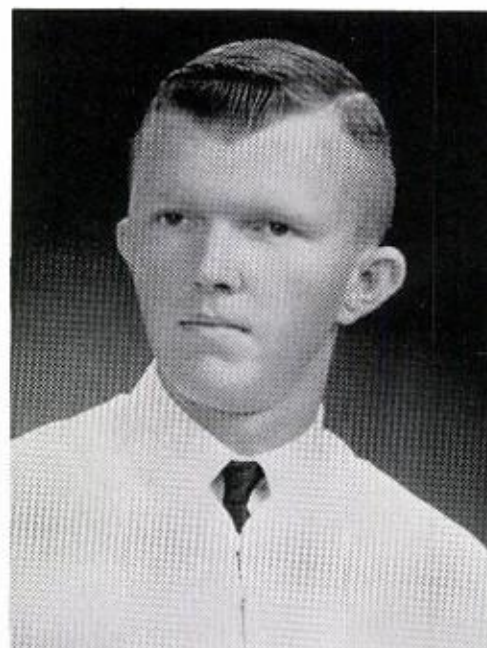

The foundation has been laid. We have effected qualities of leadership, scholarship, fraternity, and creativity into our actions.

## *Creative Youth*

The creativity of youth, especially at Stranahan is amazing and fascinating. The students are always able to offer a new twist to liven up an old project.

Throughout Stranahan's history, there have been countless themes created by imaginative minds. More imaginative minds have been behind these to carry out and publicize the event. Stranahan's activities are never lacking in variety.

Clubs must sponsor many fund raising activities so that they may continue their service to the school. This year they have sold various and sundry items from troll dolls and garters to beanies and key chains. When rendering service they write Santa Claus letters, sod the school lawn, install giant menus in the cafeteria, and make plastic plants.

Life at Stranahan will never be dull as long as the students retain the creativity they have possessed for so long.

Mary Lucas, *President*

*Mr. Mosser, I.C.C. Sponsor*

Stranahan Clubs, which may well be catagorized as service centered, special interest and career centered, were developed through the years so so that students would learn to place service above self, to encourage academic excellence as a condition for continuing membership, to improve school spirit and morale, and to maintain high standards of personal honor and integrity.

We have made great progress in our club program in training the largest number of students for leadership, citizenship, and the development of constructive, and productive ideas and ideals for the general good of the individual student and the total student body.

# Varsity Cheerleaders

Elaine Dade, cheerleading captain, "puts her heart into her work."

Elaine and Mary Ann lead the funeral spirit.

Mrs. Joan Hill, cheerleading sponsor, and Stranahan's "SECRET WEAPON"

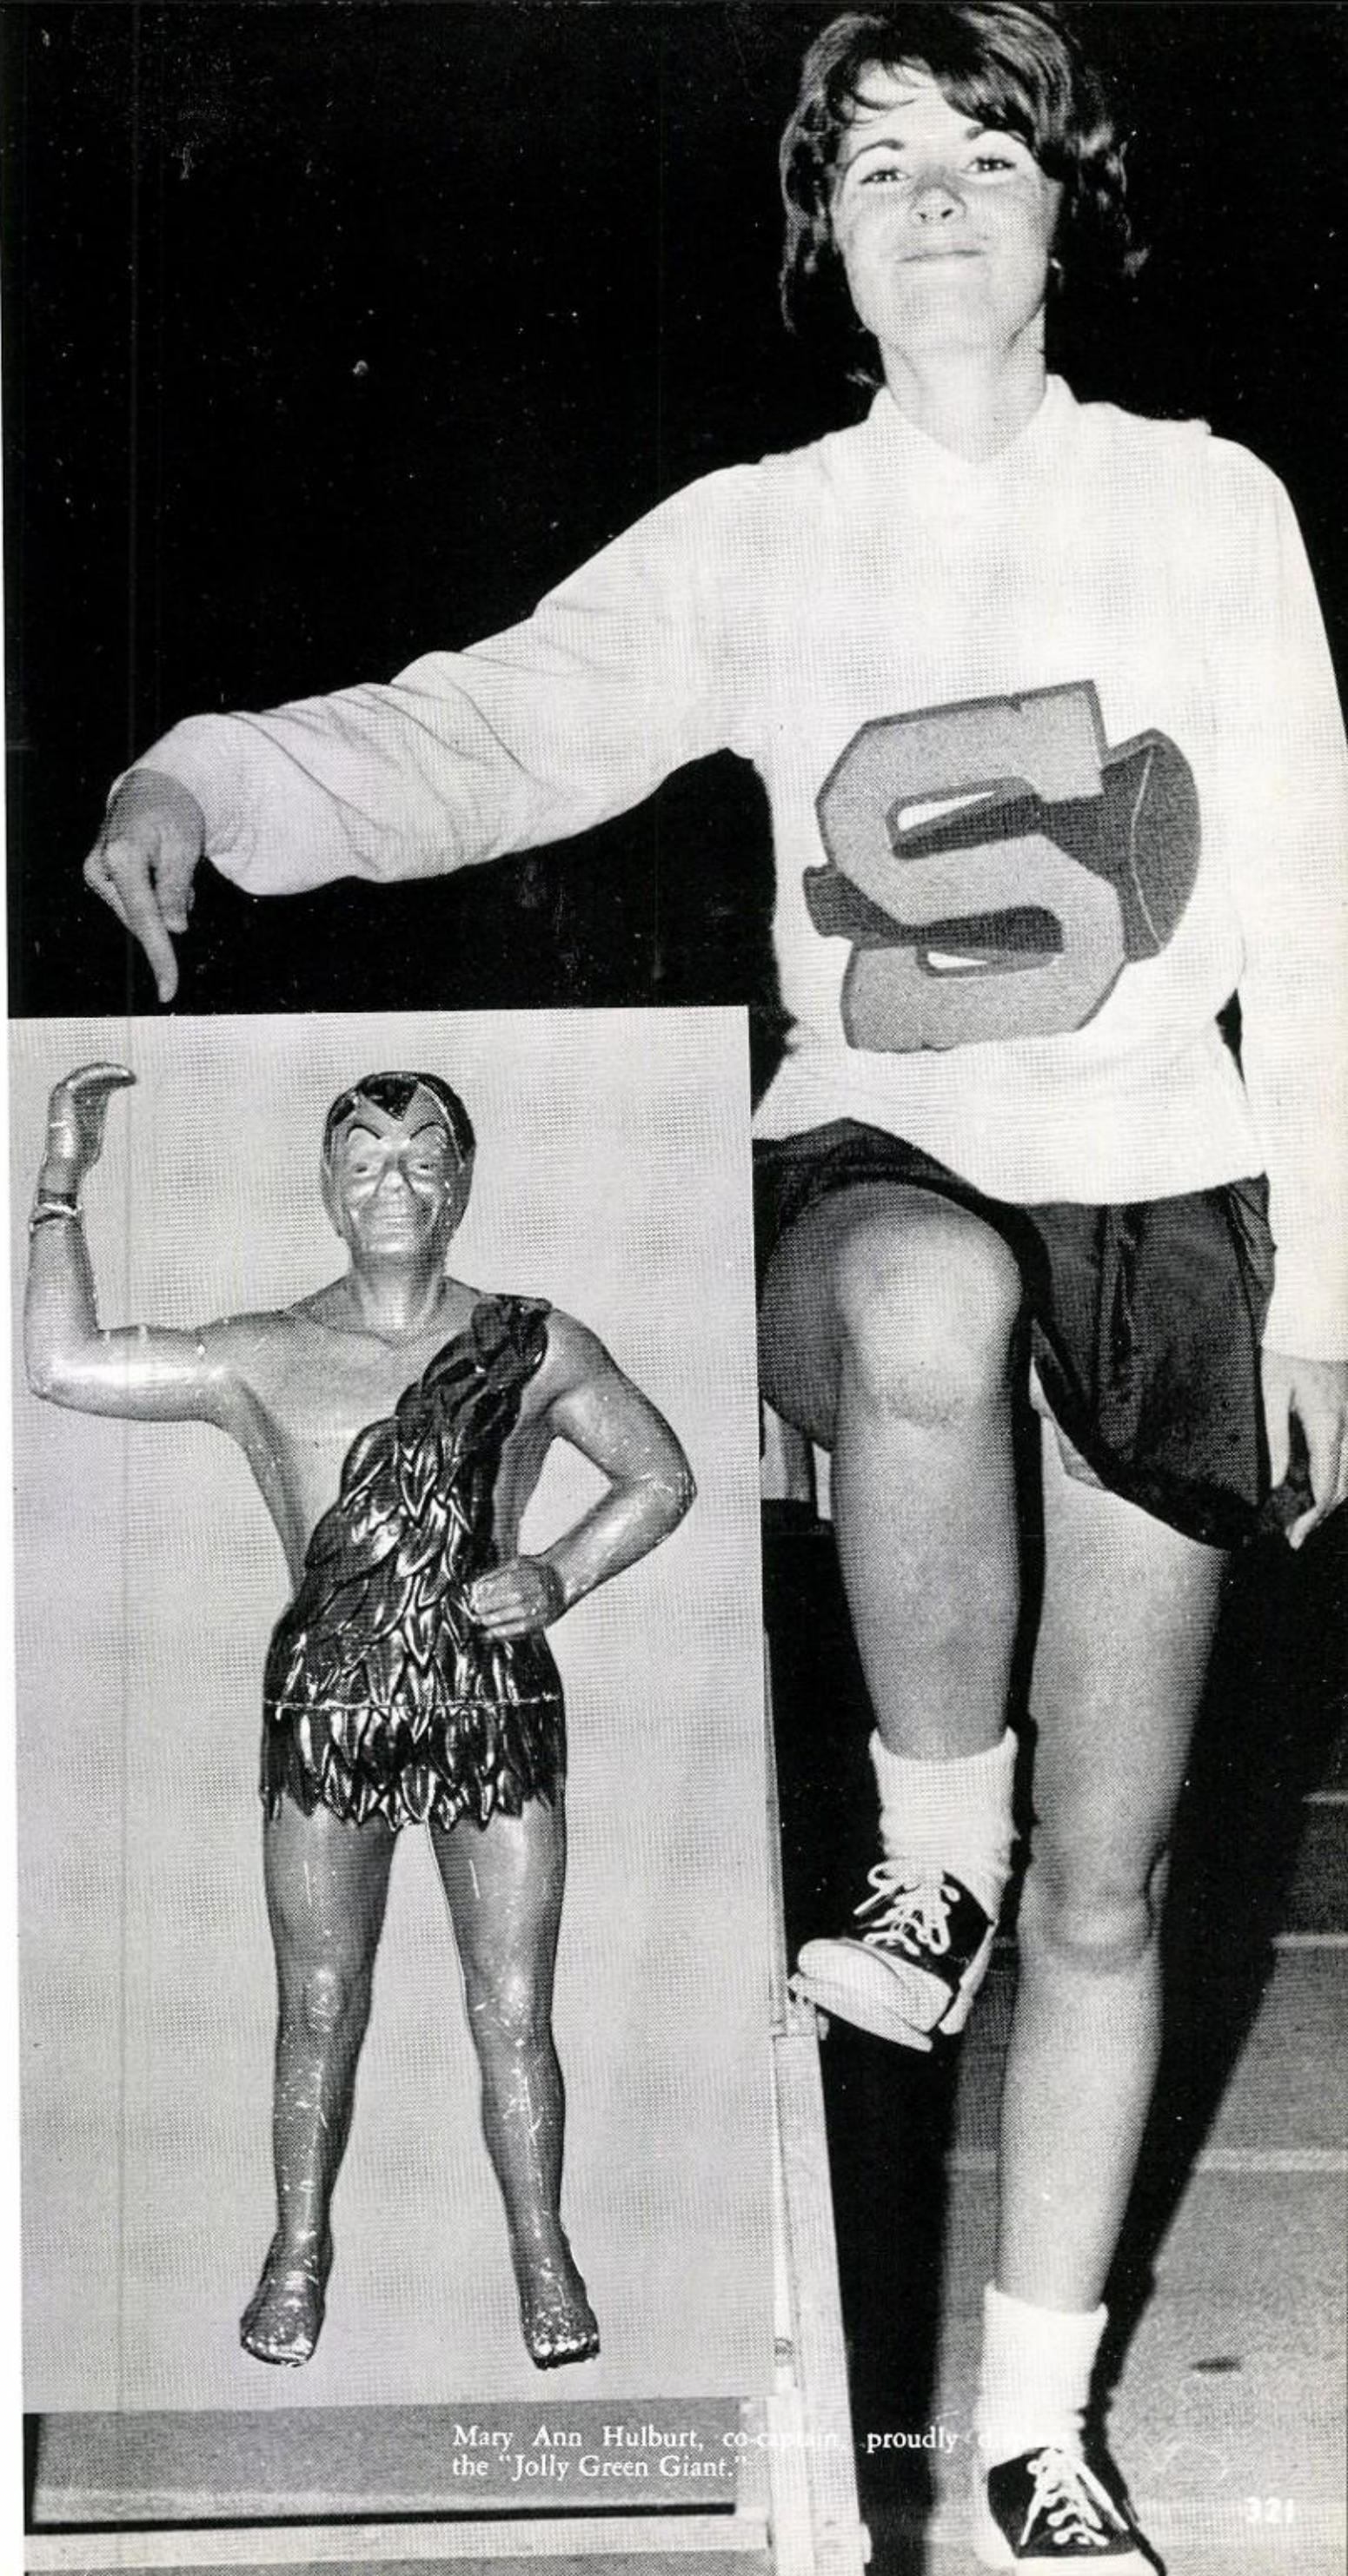

Creativity need not be apparent materially to be present. There are times and events when it is beheld in the *eyes* of God, but in the *hearts* of men. Those students who participate in sports, actively or as spectators, are keenly aware of the opportunity for expression of their innermost feelings. Together, the athletes and those who cheer them on from the stands create a spirit of excitement and fellowship which remains long after the game is over. When one can feel that his efforts have been a part of teamwork, when he feels pride in a job well done—whether in victory or defeat—he experiences a love of team and a love of school which he will carry with him into adulthood as a love of man—and isn't love the greatest thing we can create?

# Sophomores

THE SOPHOMORE CLASS OFFICERS: Kathy Pierce, secretary; George Linkenbach, vice-president; Heidi Badgett, treasurer; and Carr Lee Fletcher, president.

#### PRESIDENT'S MESSAGE

Creativity, like intelligence, is one of the most highly-valued human qualities. Every year there is a certain number of people who will graduate from Stranahan High School and will succeed in life by using their creative talents. This year, the sophomore class of Stranahan High School has shown that many of its students are gifted with this talent of creativity. These students have applied their talents to the betterment of Stranahan High School.

Many sophomores have displayed their creativity by either acting or helping back-stage with various plays put on during the year. Other sophomores have been creative in the field of literature by writing poems or short stories for the *Digest*; by helping to make the yearbook; and by writing articles for the school newspaper.

As a whole the sophomore class, though it is the smallest in the history of the school, has created among its members a school spirit that is outstanding—a feeling of unity.

Through the continued efforts on behalf of all the members of the class, the Class of '67 shall be a class that Stranahan High School will be proud of.

# We salute you...GRADUATES of '65

Your Florida high school education has been exciting...filled with good times to remember, challenging academics and excellent facilities.

Your Florida college education can be just as exciting, and far more rewarding...especially in the rapidly growing, opportunity-filled Florida into which you will graduate.

An investment in knowledge pays the best dividends. Going to college "in-state" is extra easy and less costly...and Florida has more than 50 outstanding junior colleges and four-year universities conveniently situated.

Good luck...best wishes...and more power to you!

There aren't many in this book.

The "little" men on campus—Mr. Ogle and Coach Marcum.

Mr. Ogle helps Kathy Spera with a yearbook lay-out.

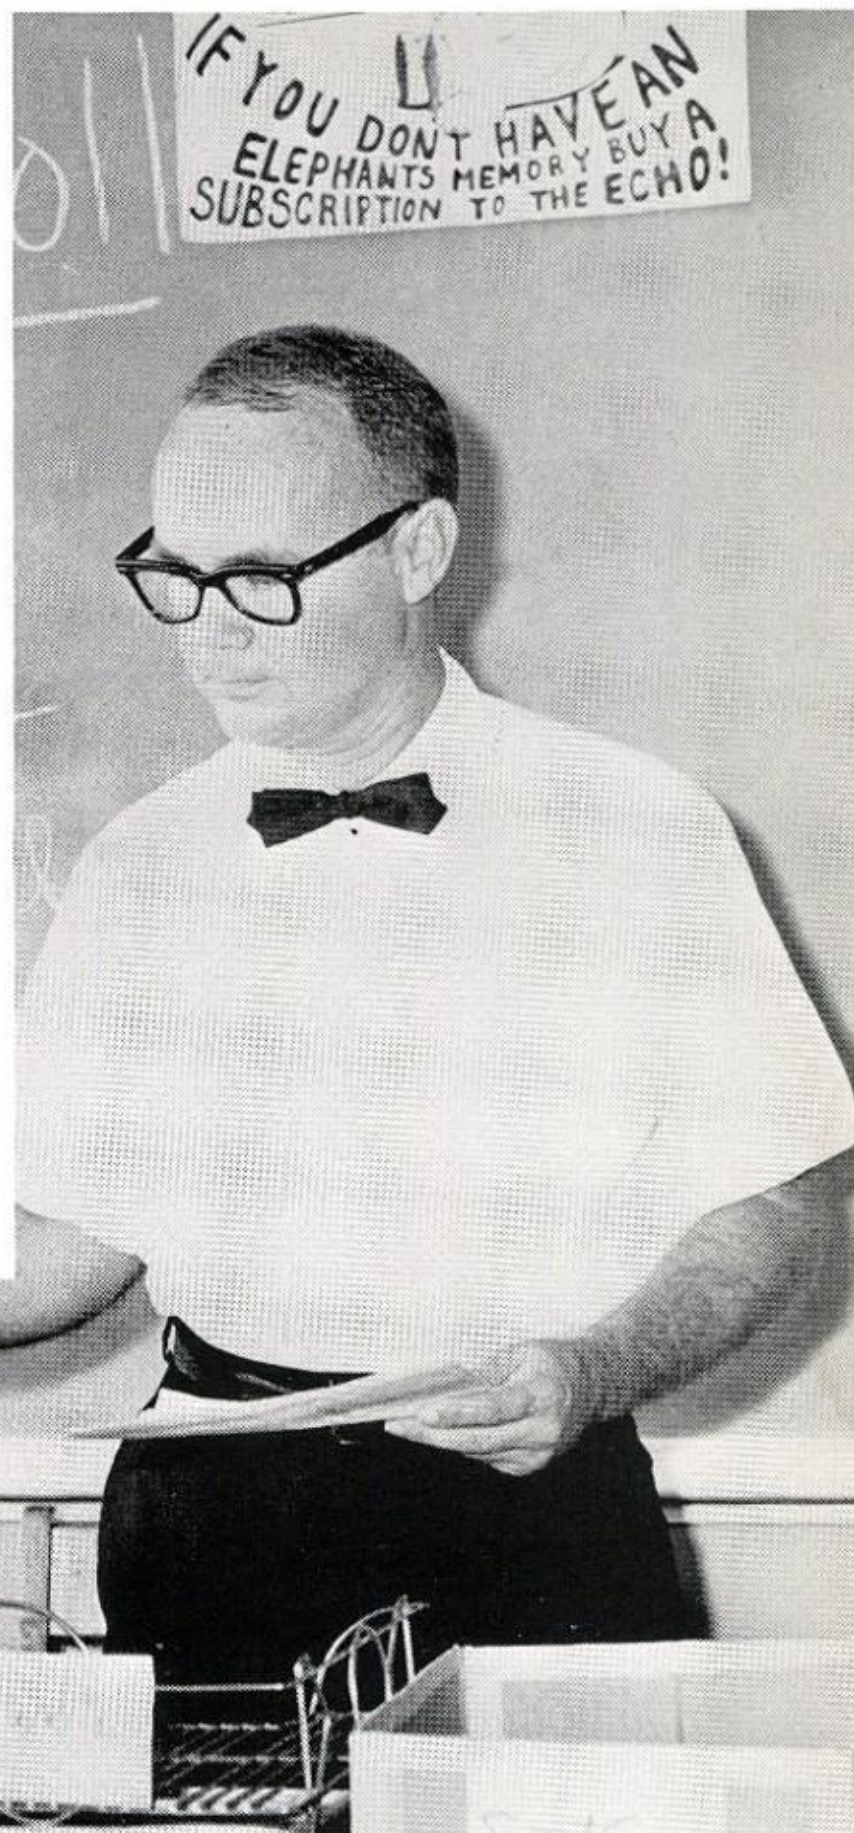

# Dedicate . . .

the 1965 EL PASADO to our advisor Boyd Ogle in appreciation for his devotion and unlimited knowledge which, combined with a complete understanding of us and our ideas, has created this book, the ECHO, the DIJEST, and kept Quill and Scroll a top notch club.

Through this dedication, we wish to express a thank-you for everything in general from us and all his former students who have had this same idea.

THE EDITORS AND STAFF.

Mr. Ogle helps often comes in early or stays late to work on copy for the ECHO.

Mr. Ogle and Mr. Snyder get the swimming team lined up properly for pictures.

It has been real nice  
knowing you for the past two

we had. I know we didn't  
hit it off to good this year,  
but I guess that was mostly  
my fault. Anyway, I wish  
you all the happiness in the  
world.

Best of Luck Always,

Love,
